Module 10 Overview & Checklist

Analysis of Variance

Quinton Quagliano, M.S., C.S.P

Department of Educational Psychology

Table of Contents

1	Learning Objective(s)	2
2	Assessments	2
3	Lecture(s) & Participation	2
4	Looking Ahead	2

1 Learning Objective(s)

- Understand the integration of between-subjects and within-subjects variables in an ANOVA context, and how to describe their different sources of variances
- Understand the assumptions we must consider and how interactions occur in this type of model
- Understand the common scenarios in which this type of model may be used

2 Assessments

- ☐ Quiz 9 on Module 9 Content on Canvas

3 Lecture(s) & Participation

- ☐ Watch Module 10 Lecture on Canvas and Take Notes
- ☐ Complete and Turn-in Module 10 Lecture Check-in on Canvas

4 Looking Ahead

- ☐ Quiz 10 Next Week on Canvas
